RECEIVED

PRINTED BY L. S. WALL, PRINTER TO HER MOST EXCELLENT MAJESTY—1963

Edmonton, Alberta,
January 2, 1963.

This 1963 edition of the Alberta Trade Index has been compiled to meet the need for a consolidated source of information on the variety of products manufactured in the province.

It is hoped that through the widespread distribution and use of this publication, its primary purpose, that of promoting the sale of Alberta made goods, will be accomplished.

The dynamic nature of the industrial progress which has taken place in Alberta is in evidence when the list of the wide range of products manufactured in the province is examined.

The rapid expansion of industry and the accompanying growth in population have contributed to increasing our requirements of imported goods. A secondary purpose of this publication is to attract attention to the amount of goods being brought into the province to supply the needs of the industrial and the domestic consumers.

The industrial promotion services of my department are at the disposal of interested industrialists. Enquiries are invited.

a R Patrick

Hon. A. R. Patrick, Minister,
Department of Industry and Development

CONTENTS

Page

SECTION 1. ALBERTA MANUFACTURING FIRMS 1

In this section the manufacturing firms of the province are listed. Types of products are given, and approximate size of firm indicated by a simple letter code. New firms which began operations subsequent to preparation of original lists are shown in an addenda on page 2.

SECTION 2. ALBERTA MADE PRODUCTS 49

Products of manufacturing plants and the names and addresses of the firms producing the specific product are listed alphabetically. Actual postal address can be obtained by referring to Section 1.

SECTION 3. IMPORTS: CLEARANCES AT ALBERTA CUSTOMS' PORTS - 1961 123

Total value of goods cleared at Alberta customs' stations in 1961 was $243,071,123. On the assumption that many of these products might be manufactured in Alberta a selected sample list, showing quantity and value, is presented to interest potential manufacturers. The list does NOT include quantity and value of products manufactured or brought in from other parts of Canada. Complete lists of products cleared at customs' ports are available on request.

SECTION 4. QUANTITY AND VALUE OF ALBERTA MANUFACTURES - 1960 131

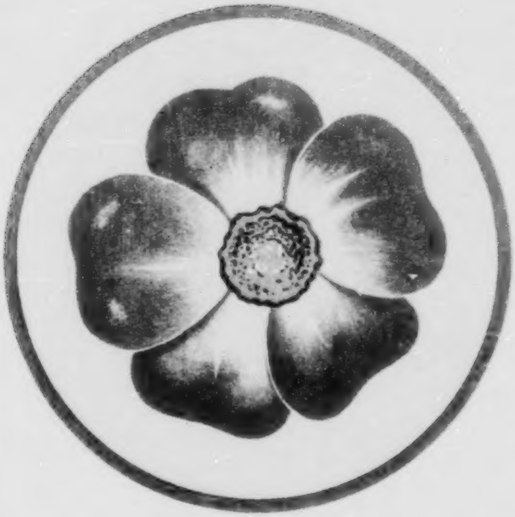
When three or more firms produce a specific type of goods it is permissible to publish figures showing quantity and value. The list of products in this section is more detailed than that shown in Section 2, but volume figures are being withheld on many items.

SECTION 5. MATERIALS USED IN ALBERTA MANUFACTURES - 1960 145

Subject to the qualifications noted above, this section contains information concerning the volume of consumption of raw and semi-processed materials by local manufacturing plants.

Sections 3, 4, and 5, have been prepared to stimulate interest in consumption of locally manufactured products, or, alternatively, to stimulate local production for use in other manufacturing plants or by the public.

SECTION 6. COAL MINES 157
QUARRIES 158
PUBLICATIONS 159
RADIO STATIONS 161
TELEVISION STATIONS 162
LUMBER OPERATORS 163



Many of the Alberta firms listed in this Trade Index label their products with the Alberta floral emblem, emphasizing the fact that they are Alberta made.

Albertans benefit by patronizing Alberta manufacturers and buying Alberta made products. Buying Alberta made goods helps to increase local employment, encourages industrialization and produces a sounder economy.

Support Alberta Industry by purchasing Alberta made products.

101-07545/

SECTION 1.

ALPHABETICAL LIST OF ALBERTA MANUFACTURING FIRMS

Size of firm is indicated by following code:

A.	1 to 5	employees
B.	6 to 15	"
C.	16 to 25	"
D.	26 to 50	"
E.	51 to 100	"
F.	101 to 200	"
G.	201 to 500	"
H.	501 to 1000	"
K.	1001 and over	"

ALPHABETICAL LIST OF PRODUCTS MANUFACTURED IN ALBERTA

1960

The following list is more detailed than that found in the directory of firms and has been compiled to show, wherever possible, the dollar volume of products manufactured. The Statistics Act precludes the publication of figures, either quantity or value, if the specific product is manufactured by less than three firms. An asterisk in the value column indicates items affected by this regulation. Quantities and valuations shown are minimum, since not all firms report in detail.

ALPHABETICAL LIST OF MATERIALS AND SUPPLIES USED BY MANUFACTURING FIRMS OF ALBERTA

1960

The following is a list of materials and supplies used by Alberta manufacturing firms in 1960. The list is not complete. Some items of small value have been omitted. Some firms failed to submit detailed lists of materials used. The figures presented as to quantity and value will therefore be, in every case, minimum figures.

The Statistics Act precludes the publication of figures, either quantity or value, if the specific item is used by less than three firms. An asterisk in the value column indicates items affected by this regulation.
